

"Knowledge is the key to your future success."

To fully enjoy life, everyone needs to find satisfaction in the work they perform and earn enough to provide a good standard of living for themselves and their family.

In today's world, your ability to achieve success and personal satisfaction is directly related to your level of education and job skills.

Our mission at NEXT is to help students make more informed decisions about their choices in education. In this issue, you'll find a broad range of information regarding options available at Kentucky colleges and universities and through military training, how to obtain funding to further your education, what's hot in today's job market and other issues facing young adults today.

It's an exciting and important time as you make decisions that will affect you for years to come. Continuing your education is the best way to ensure that your future is bright.

Education pays,
