

# Finding Your Way Through the Major Maze

If you've heard it once, you've probably heard it a hundred times: "What do you want to major in?" What's more, thumbing through all those college brochures and books can make the issue even more confusing. Like, what do you really DO with a degree in Communications? Or, how does a degree in Political Science transfer into a real live job? Take a look at some of the major areas of study offered at institutions across the country and where that path may lead.
