WE'RE LEARNING; WE'RE A TEENAGER, TOO!

For 17 years, *The Lane Report* has been asking important questions about business, education, the arts and Kentucky's economy. We'll never quit seeking the truth. During the past two decades, we've learned a lot. One fact we're sure about is that your future and ability to earn a living are directly related to continuing your education after high school. Ask questions about your future. Education pays!
